*Warm Greetings to all PPK Malaysia members and friends!*

I feel privileged and honored to be given the opportunity to serve as PPKM's President for the period 2010 - 2012, and to continue the excellent works of my predecessors who have contributed immensely to PPK Malaysia.

PPKM has certainly come a long way since 1984 and today has a nationwide membership of 300 shopping malls and personnel, with a combined real estate value of RM100 billion and directly employing 500,000.

Our shopping industry has not gone unscathed from the repercussions of the global economic crisis. There have been economic challenges over the past 24 months but there are vital signs of economic recovery and consumer spending, albeit hopefully there is no second global recession dip.

PPKM will continue to build on its foundational principles of industry representation, education, interaction and networking. Over the past 2 months, PPKM was represented in the National Key Economic Area (NKEA) Labs to brainstorm and formulate bold innovative strategies to drive the nation's economy. At the same time, a delegation of 25 PPKM members visited half a dozen shopping malls in the United Kingdom and had a fruitful dialogue with the British Council of Shopping Centres. We are pleased to note the 10 largest shopping malls in Malaysia are bigger in size by nett lettable area as compared to the 10 largest shopping malls in the UK.

PPKM will also be attending and presenting papers at the Council of Asian Shopping Centres Conference in Taipei, Taiwan in mid September 2010. PPKM has also been invited by ICSC to be a member of Asia Pacific Research Council which will be meeting in Beijing in November 2010 where ICSC Recon Asia will be held. A new ICSC Global Shopping Mall Directory is expected to be presented there and hopefully, some form of research collaboration with ICSC can materialize.

Education continues to remain the corner stone of PPKM's calendar of activities and 173 personnel have attended Certification Courses for 2010. A total of 1,476 personnel have attended since 2002 and 88 members have qualified with Certified Manager accreditation, and of that, only 19 have qualified for the full Certified Complex Manager accreditation.

Currently, PPKM together with Building Management Association of Malaysia (BMAM) is actively pursuing on a few important substantive issues affecting the shopping industry. First, is to lobby for the removal of legislative requirement under the Valuers, Appraisers and Estate Agents Act 1981 (VAEA) requiring property manager to be a registered valuer. Secondly, PPKM is to negotiate for a fair and reasonable renewal rate with MACP and PPM for the right of usage of music copyright intellectual properties. Thirdly, PPKM together with BMAM is lobbying the Ministry of Domestic Trade and Consumer Affairs to amend the proposed Copyright Act 1987 (2010); since there are serious liability issues, we need to protect and safeguard the interest of shopping mall owners and management respectively.

Last but not least, we humbly seek the support and cooperation of all PPKM members and friends to work closely on common industry's issues. Together we can heighten and elevate the Malaysian Shopping Industry to be globally competitive as a Shopping destination.

*Thank you.*

## CURRENT ISSUES

### Music Copyright and other issues

As the term for the current agreement with music copyright bodies will expire on 31 December 2010, negotiations are currently underway for the new term starting 1 January 2011.

Recently proposed amendments to the Copyright Act 1987 indicated that owners of premises (landlords) are to be held liable for any infringements carried out in their premises ! Whilst PPKM supports copyright laws, this does not mean fair protection for building owners including shopping centres, so together with other like-minded organizations, we have submitted a Memorandum to the relevant authorities. To reinforce our position, a press conference on 29 June 2010 highlighted the consequences of such proposals (refer to the pullout section for further details).

◀ L to R: Toh Peng Koon, Malaysia Retailers Association (MRA); HC Chan, PPK Malaysia; Dato CK Teo, Associated Chinese Chambers of Commerce and Industry Malaysia (ACCCIM); Datuk Eddy Chen, Real Estate and Housing Developers Association Malaysia (REHDA); Richard Chan; YY Lau, FIABCI Malaysia and S. Venkateswaran, Building Management Association of Malaysia (BMAM)

### Park at Your Own Risk

The authorities also recently proposed to introduce amendments to the Consumer Protection Act whereby vehicle owners would be able to claim for compensation from car park operators for loss of vehicles and contents/belongings in the vehicles. In practice, this would open the floodgates for 'unreasonable' claims and/or result in extra costs to consumers so a Memorandum will be submitted by PPKM together with other affiliated organizations to protest against the said amendments.

### Valuers, Appraisers and Estate Agents (VAEA) Act 1981

The specter rises again !? Amendments to the VAAE Act are recently in the offing once again to restrict property (including shopping centre) management to a select group of professionals. However, PPK continues to lobby the relevant authorities for the right of all qualified practitioners, regardless of professions or otherwise, to perform property/shopping centre management and to advocate an open market policy

## Making A Difference (M.A.D.) Seminar, 8 July 2010

Yes, we broke the mould to undertake a MAD Seminar and it was really way out ! It was time to stop and take stock, time to break self-made boundaries, make changes and tap the full potential of all participants. The trainer, Mr Anas Zubedy, made all the participants look within themselves, to think outside the box so that they could make a difference with their lives and with their jobs in shopping centres ...

## 24th Annual General Meeting, 27 March 2010

Yes, it's been a good 24 years, and the AGM at Sunway Resort Hotel and Spa saw an excellent turnout of enthusiastic members from near and far, East Malaysia. Year 2009/2010 was again an extremely active year, involving more than 300 meetings, events, dialogues etc. and close interaction with government agencies, related bodies and member shopping centres. The immediate past President, Ms Joyce Yap stepped down after 2 terms and elections were conducted for the new term of 2010/2012.

This is a long term measure in line with the increased expanding scope of works due to continuously increasing activities in recent years and space constraints at the present premises.

# Northern Region Meeting, 14 August 2010

Reaching way up north, PPKM committee met with both members and non-members from Penang, Perak and Kedah at Sunway Hotel, Georgetown recently. ## National Key Economic Area (NKEA) Labs, June - July 2010

PPKM's representatives, Mr Stanley Kok and Ms Evelyn Lo attended the recent 2-month NKEA labs which covered 12 key economic sectors which were targeted to stimulate and enhance the Malaysian economy under the Economic Transformation Programme set to be undertaken over the next few years until 2020. Stanley reported that the Tourism Lab produced 12 projects while the Wholesale & Retail Lab (attended by Evelyn) generated more than 10 initiatives.

The 425 lab participants were invited from both the public and private agencies involved in the key economic sectors. Participants agreed that generating big, bold ideas was great and stimulating, it was intense and stressful to obtain credible statistics to support the projects. Congratulations to all who survived being lab rats !

Update: NKEA Lab reports have now been submitted to the Cabinet for their consideration and approval; for those interested, watch out for forthcoming NKEA Open Day announcements

# Study Trip to United Kingdom, 17 - 25 June 2010

With 25 people in tow, PPKM embarked on its first ever study trip outside the Asia-Pacific region to look at numerous shopping centres and precincts in United Kingdom. The visits were spaced out from London to Newcastle-upon-Tyne, Birmingham, Kent and back, a wonderful adventure traversing the diverse English shopping scenes. Of course, participants took time off to visit the must-go London icons like Big Ben and Buckingham Palace + doing some shopping on the side – the summer sales helped tremendously, right ?!

The general conclusion was summed up in a few succinct words: hectic but worthwhile, good networking, good selection of malls and value for money !

▲ Incurrable shoppers who need retail therapy

▲ Look who's in London taking in the sights ! KK Lim & Jo Kok, Phang Sau Lian & Evelyn Lo

▲ Posing in front of Westfield London

▲ Tim Walley, Bullring, Birmingham gave an insightful brief of the mall's history and its successful rebranding

There was a sincere and open exchange of ideas and opinions during the breakfast meeting with the British Council of Shopping Centres (BCSC) – our corporate video showcasing Malaysian shopping centres certainly impressed BCSC ! Just goes to prove again that our malls are at par with international levels, if not, more ...
