Dear Members

SECURITY & SAFETY SEMINAR (FOUNDATION), **OCTOBER 2022** ORGANISED BY PPK MALAYSIA

Greetings, we shall be continuing with our security programme for the FOUNDATION series where we will address current pertinent issues in shopping malls. The programme is focused on shopping mall operations and the importance of effective security personnel as they are the front-liners in our malls, especially as they are now required to be gatekeepers to control the entry of all shoppers. Our seminar dates are as follows:

Dates: Tues 4 Oct and Wed 5 Oct 2022

Time: 8.30 a.m. to 5.30 p.m. daily

Venue: Level 5, Cititel Hotel, Mid Valley City, Lingkaran Syed Putra, 59200 Kuala Lumpur

The 2-day sessions, conducted annually since 2006 (except for 2020), will equip security and safety personnel from guard/officer/supervisor/executive levels in the basic procedures and knowledge required for the daily operations of shopping malls. Our speakers are sourced from senior in-house security personnel of prominent member malls with extensive working experience both in shopping malls and previously in the police force, as well as specialists from the industry.

It is our goal that all security and safety personnel are adequately educated and equipped with the basic knowledge for shopping mall operations. The seminar fees (inclusive of service tax) will be as follows:

One just cannot stress enough on the importance of SECURITY and SAFETY aspects in public developments like shopping malls and high rise buildings (including office towers, condominiums, hotels, mixed developments etc.). In today's sophisticated shopping malls with current emphasis on health safety, there is a significant need to become more aware of security and safety issues and building owners and managers need to employ competent and educated staff to ensure their patrons' safety and security at all times.

SECURITY GUARDS are very often the first people patrons come into contact with on any incidents which happen in the car parks or buildings, so it is all the more important for the security staff you employ to be able to respond appropriately especially in emergency or crisis situations.

PPK Malaysia has taken the proactive role to organize the above seminar course where building owners and managers employ both in-house and contract security personnel and may lack facilities or logistics for the education of security personnel.
